? AMOUNTS PENDING

Allocation percentages illustrative; totals depend on loan size and deal structure (Pack 14/16).

BOTTOM LINE UP FRONT

The loan funds the **cash trough**, not a spending spree: founder runway through the pre-revenue ramp, essential legal/formation, and a modest first marketing presence — with the largest discretionary items (hiring, big trade stands) deferred until traction justifies them.

Illustrative allocation

Use	Share (⚠️)	Rationale
Founder runway (pre-revenue months)	~40%	Cover the cash trough (Pack 16)
Legal / formation / compliance	~15%	Proper agreement + ICO/DPA (Pack 14/15) — non-negotiable
Marketing (1 trade show + web/content)	~20%	Proportionate presence (Pack 07)
Localisation / setup (if needed)	~15%	Subject to RRUP scope (Q7)
Contingency	~10%	Prudence

THE DISCIPLINE A LENDER WANTS TO SEE

Note what's **not** funded upfront: no full sales team, no big paid-ads budget, no large stands. Those come from traction (Pack 05 growth gates), not from the loan. That gated discipline is exactly what makes the repayment path credible.

Implication

A lender (and the CEO) sees capital allocated to survival and proof, not speculation — the profile of a fundable, low-risk plan.
