

Internal CRM Setup

How to configure SalesOps CRM to run your own UK sales operation.

Pack 10 — Internal CRM & Pipeline

Prepared by Waqas Mian · **Prepared for** Chief Executive Officer, RRUP sp. z o.o.
(SalesOps CRM)

Date July 2026 · **CONFIDENTIAL — PARTNER REVIEW**

Document	Internal CRM Setup
Purpose	Turn "we sell a CRM" into "we run on it" — a live proof point and an efficient operation.
Status	Build-now · Method
Prepared by	Waqas Mian · for CEO, RRUP sp. z o.o. / SalesOps CRM
Version / Date	v2.0 · July 2026 · Reading time ~3 min

BOTTOM LINE UP FRONT

Run the UK operation **on SalesOps CRM itself**. It's the cheapest, most credible reference you'll ever have ("we run our own business on it") and it makes you fluent in the product you sell. Configure it to the pipeline (Pack 10 stages) from day one.

Setup checklist

Item	Configure
Pipeline	The 6 stages + exit criteria (Pipeline_Stages)
Lead source tags	MCS outreach / trade show / referral / inbound (Pack 08)
Automation	Follow-up reminders; sequence steps (Pack 08) via Work-Flow engine
Templates	Outreach emails; demo booking; trial onboarding checklist
Reporting	The KPI dashboard (this Pack)

DOGFOODING IS A SALES ASSET

"We run our own company on this exact system" is a uniquely credible line — it turns your daily operations into a live demo and forces you to know the product's strengths and rough edges before a prospect finds them. Every hour configuring your own instance pays back in demo fluency.

Implication

Your own instance is simultaneously your operating system, your best reference, and your training ground. Set it up properly before the first outreach.
