

SOP — 30-Day Onboarding

The step-by-step that turns a free trial into a paying, retained customer.

Pack 12 — SOP Library

Prepared by Waqas Mian · **Prepared for** Chief Executive Officer, RRUP sp. z o.o.
(SalesOps CRM)

Date July 2026 · **CONFIDENTIAL — PARTNER REVIEW**

Document	SOP — 30-Day Onboarding
Purpose	Standardise the onboarding that drives trial → paid conversion — the model's key lever.
Status	Build-now · Procedure
Prepared by	Waqas Mian · for CEO, RRUP sp. z o.o. / SalesOps CRM
Version / Date	v2.0 · July 2026 · Reading time ~4 min

BOTTOM LINE UP FRONT

This is the most important SOP in the package. Most CRM churn happens in the first 30 days; a structured, hands-on onboarding is what converts a trial into a paying customer. Get the team **live and using it by day 7** — adoption, not features, is what converts.

The 30-day procedure

Phase	Days	Actions
Data ingestion	1–7	Migrate historic customers/jobs off spreadsheets; get at least one real workflow running; team logs in
Configuration	8–21	Set up their pricing catalogs, CPQ rules, UK compliance fields (MCS/DNO/ECO4); tailor to their trade
Adoption	22–30	Live training for office + field; verify mobile/photo sync; confirm daily use; pre-close conversation

DAY 7 IS THE MAKE-OR-BREAK

If the customer's team isn't logging in and doing real work by day 7, the trial is already drifting toward "no." Front-load the effort: migrate their data and get one genuine workflow live in week one, so by week two they're already dependent on it.

Ownership

Owned by the Implementation lead (the "personal tutor" role, Pack 13). This role is not overhead — it is the differentiated service that wins the deal (Pack 05) and the single biggest lever on the financial model (Pack 16 sensitivity).

Implication

Resource this properly. A great product with weak onboarding converts poorly; a good product with excellent onboarding retains. This SOP is where retention is won.
