

Mission & Vision

What the UK venture is for, and where it's going.

Pack 01 — Executive Summary

Prepared by Waqas Mian · **Prepared for** Chief Executive Officer, RRUP sp. z o.o.
(SalesOps CRM)

Date July 2026 · **CONFIDENTIAL — PARTNER REVIEW**

Document	Mission & Vision
Purpose	State the purpose and direction that anchor the strategy.
Status	Build-now · Direction
Prepared by	Waqas Mian · for CEO, RRUP sp. z o.o. / SalesOps CRM
Version / Date	v2.0 · July 2026 · Reading time ~2 min

BOTTOM LINE UP FRONT

Mission: give growing UK renewables and trade installers one proven, affordable system to run their whole business — so they can scale without drowning in admin. **Vision:** become the default operating platform for the UK's small-and-mid installer market as it triples toward the 2028 heat-pump targets.

Mission

Help growing UK installers replace spreadsheets, WhatsApp and manual paperwork with one proven, per-seat-priced platform that runs lead-to-cash — freeing them to grow rather than firefight.

Vision

As the UK races toward 600,000 heat pumps a year by 2028, become the go-to operating system for the small-and-mid installer segment the big platforms overlook — built on a proven engine, delivered with genuine local care.

WHY THIS FRAMING WORKS

The mission is customer-outcome-led (help installers scale), not product-led (sell CRM) — which keeps the whole operation pointed at the thing that actually drives referrals and retention in a trust-based trade. The vision is ambitious but bounded to a real, reachable segment (Pack 03), matching the honest, capital-efficient posture of the whole plan.

Implication

Mission and vision anchor the positioning (Pack 04) and the growth story (Pack 05/18): every decision serves helping installers grow, in the segment the venture can genuinely win.
