BOTTOM LINE UP FRONT

Grow in three evidence-gated phases: **prove** (win a Tier-1 cluster with a lean pod), **expand** (adjacent segments/regions once repeatable), **scale** (larger deals via the SAP play, and a growing team). Each phase is triggered by proof, not calendar — which keeps burn matched to traction.

The three phases

Phase	Focus	Trigger to advance
1 — Prove (~0–6 mo)	Beachhead: Tier-1 installers, North West; lean pod; free-trial motion	3+ referenceable customers + repeatable demo → paid
2 — Expand (~6–18 mo)	Adjacent trades/regions (Pack 06 Tier 2); trade-show presence; first hires beyond the pod	Positive unit economics (Pack 16); playbook documented
3 — Scale (18 mo+)	Tier-3 SAP-coexistence deals; regional team; national reach	Proven larger-deal motion; funding for growth

The discipline

TRACTION GATES SPEND

Do not hire the full team, take the big trade-show stands, or chase enterprise deals until Phase 1 proof exists. Matching investment to demonstrated traction is what keeps a loan-funded venture solvent and what a Start Up Loan mentor (Pack 17) will expect to see.

Dependencies ⚠️

Phase pacing depends on the deal structure (Pack 14) and funding (Pack 16/17), both partly CEO-gated. The *shape* of the path is robust; the *speed* depends on those answers.

Implication

This staged path is the backbone of the launch plan (Pack 21) and the financial model's timeline (Pack 16). It is deliberately conservative on spend and aggressive on focus.
