

Data Sources Directory

Every lead source, what it yields, what it costs, and its compliance status.

Pack 08 — Lead Generation Blueprint

Prepared by Waqas Mian · **Prepared for** Chief Executive Officer, RRUP sp. z o.o.
(SalesOps CRM)

Date July 2026 · **CONFIDENTIAL — PARTNER REVIEW**

Document	Data Sources Directory
Purpose	A single reference of where leads come from and how to use each source lawfully.
Status	Build-now · Verified/Public
Prepared by	Waqas Mian · for CEO, RRUP sp. z o.o. / SalesOps CRM
Version / Date	v2.0 · July 2026 · Reading time ~4 min

BOTTOM LINE UP FRONT

The lead-source stack is anchored by two free, public, perfectly-matched registries (MCS + Companies House). Everything else is optional amplification. Used together with UK-GDPR discipline (Pack 15), they produce a compliant, high-fit prospect base at minimal cost.

Directory

Source	Yields	Cost	Compliance
MCS Installation Database	Every certified UK installer — the ICP universe	Free	Public; check terms before automated scraping
Companies House SIC search	Firm size, status, filings for size-filtering	Free	Public
LinkedIn	Named MD / ops-lead per firm	Free / Sales Nav	Respect platform terms; UK GDPR on contact use
RECC / HIES directories	Certified installer membership; partnership route	Free	Public bodies
Paid B2B data (B2B Data Scout, Prospect360, More Than Words)	Verified emails/phones at scale	Paid (get quotes)	Ensure GDPR-compliant sourcing + lawful basis
RRUP EU customer base	Warm referrals with UK links	—	? Ask RRUP

Using them lawfully

UK GDPR IS NOT OPTIONAL

B2B outreach in the UK still requires a lawful basis (typically legitimate interest for B2B email, with a clear opt-out), ICO registration, and suppression of anyone who opts out. Never import a third party's proprietary client list (e.g. from a prior employer). Pack 15 covers the policies; this is a live compliance obligation from the first email.

Implication

The two free registries alone are enough to run month-one outreach. Paid data is a scale accelerant to add once the message is proven to convert — not a prerequisite.

Sources & confidence

Claim	Source	Confidence
Registries, directories	public bodies	 Verified
Paid data vendors	vendor sites	 Public
GDPR obligations	ICO guidance	 Verified
