BOTTOM LINE UP FRONT

The org grows in three steps, each gated on proof: **founder-only** → **lean pod** (SDR + AE + Implementation lead) → **regional team**. Hiring follows demonstrated traction (Pack 05 gates), never precedes it — the discipline that keeps a loan-funded venture solvent.

Revenue scenario fan — ILLUSTRATIVE, driven by Assumptions Register (⚠)

Exhibit 1: Revenue scenarios (context for when hiring is affordable) — from the Assumptions Register.

The three org stages

Stage	Team	Trigger
Founder-only	You (all functions, Pack 11)	Launch
Lean pod	+ Outbound SDR, Vertical AE, Implementation lead	Repeatable motion + funding (Pack 05/16)
Regional team	+ more sellers, regional coverage	Positive unit economics; Tier-2/3 expansion (Pack 06)

THE LEAN-POD LOGIC

The three pod roles map exactly to the three functions that make the motion work: generate pipeline (SDR), convert it (AE), and retain it (Implementation). It's the smallest team that covers the whole motion without gaps — and each role only gets hired when the founder can no longer cover it and the revenue supports it.

Implication

This staged org is the backbone of the staffing forecast (this Pack) and the cost side of the financial model (Pack 16). Its discipline — proof before headcount — is a core risk mitigation (Pack 19).
