

Role & Job Descriptions

The three pod roles — what they do, who to hire, how they're measured.

Pack 13 — Staffing Plan

(SalesOps CRM)

Date July 2026 · **CONFIDENTIAL — PARTNER REVIEW**

Document	Role & Job Descriptions
Purpose	Ready-to-use role definitions for when hiring is triggered.
Status	Build-now · Method +  benchmark comp
Prepared by	Waqas Mian · for CEO, RRUP sp. z o.o. / SalesOps CRM
Version / Date	v2.0 · July 2026 · Reading time ~4 min

BOTTOM LINE UP FRONT

Three roles cover the whole motion. Hire the **SDR** for outreach volume, the **AE** for conversion, and the **Implementation lead** for retention. Compensation benchmarks below are 2026 UK market data — use them to budget, not as offers before benchmarking the specific candidate.

The three roles

Role	Does	Source from	Measured on	Comp (2026 UK )
Outbound SDR	Prospecting, cadence, booking demos (Pack 08)	Trade/merchant sales or outbound SaaS backgrounds	Qualified demos booked	Base £25–40k; OTE £35–60k
Vertical AE	Discovery → demo → close (Pack 09)	UK renewables/HVAC/trade-software sales	New recurring revenue	Base £47–57k; OTE £70–110k+
Implementation lead	30-day onboarding, retention (Pack 12)	Field-service/implementation backgrounds	Trial → paid, retention	Benchmark against ops/CS roles

HIRE FOR THE MOTION, NOT FOR TITLES

The AE must be able to run a technical vertical demo, not just talk; the Implementation lead is a retention asset, not admin. These roles are the difference between the funnel math working and not (Pack 08/16) — hire deliberately, and only when triggered (Org_Chart).

Implication

These descriptions are ready to post the moment the hiring trigger is hit (Org_Chart). Comp figures anchor the cost side of the financial model (Pack 16 Assumptions Register).

Sources & confidence

Claim	Source	Confidence
