

Master KPI Dashboard

The handful of numbers that tell you the whole venture is on track.

Pack 23 — Master Integration Report

Prepared by Waqas Mian · **Prepared for** Chief Executive Officer, RRUP sp. z o.o.
(SalesOps CRM)

Date July 2026 · **CONFIDENTIAL — PARTNER REVIEW**

Document	Master KPI Dashboard
Purpose	One integrated scorecard across sales, finance and the partnership.
Status	Build-now · ⚠️ Targets illustrative
Prepared by	Waqas Mian · for CEO, RRUP sp. z o.o. / SalesOps CRM
Version / Date	v2.0 · July 2026 · Reading time ~3 min

BOTTOM LINE UP FRONT

Track a balanced scorecard across four lenses — **pipeline, conversion, finance, partnership**. Leading indicators (activity, conversion) predict; lagging ones (revenue, retention) confirm; the partnership lens keeps the RRUP relationship healthy. Watch conversion and cash most closely.

The master scorecard

Lens	KPI	Illustrative target (⚠️)	Source
Pipeline	Demos held / week	10–15	Pack 10
Pipeline	Trials started / month	~5–12	Pack 08
Conversion	Trial → paid	40%+	Pack 16 (key lever)
Finance	New customers / month	3 (base)	Pack 16
Finance	MRR (your share)	Growing	Pack 16
Finance	Cash runway (months)	Positive vs loan	Pack 16
Retention	Churn	<15%	Pack 16
Partnership	Open terms with RRUP	Zero unresolved	Pack 14
Partnership	UK references secured	2–3 by Day 90	Pack 21

THE TWO TO WATCH ABOVE ALL

Trial → paid conversion (the model's dominant lever) and **cash runway** (what actually keeps the venture alive). If those two are healthy, the venture is healthy. Everything else is diagnostic detail.

Implication

This scorecard is the monthly operating review (Pack 11) and the early-warning system for the financial model (Pack 16). Targets firm up as pilot data replaces assumptions.
