

Services Overview

What the UK operation actually sells and delivers to a customer.

Pack 05 — Full Business Plan

Prepared by Waqas Mian · **Prepared for** Chief Executive Officer, RRUP sp. z o.o.
(SalesOps CRM)

Date July 2026 · **CONFIDENTIAL — PARTNER REVIEW**

Document	Services Overview
Purpose	Describe the offering and delivery model in plain terms.
Status	Build-now · Verified
Prepared by	Waqas Mian · for CEO, RRUP sp. z o.o. / SalesOps CRM
Version / Date	v2.0 · July 2026 · Reading time ~3 min

BOTTOM LINE UP FRONT

The UK operation sells a **per-seat SaaS subscription to the SalesOps CRM platform**, wrapped in a high-touch onboarding service that is itself a differentiator — proven software, delivered with founder-level implementation care.

The offering

Component	What it is
Core subscription	Per-seat access to SalesOps CRM (lead → quote → contract → job → invoice → commission)
Vertical configuration	Trade-specific setup (solar / heat pump / multi-trade)
Onboarding service	30-day hands-on implementation (data migration, config, training) — Pack 12
Ongoing support	Retention support; expansion as the customer adds seats

The delivery model

SERVICE IS THE MOAT

The software is proven but not unique in every feature. The **delivery experience** — a dedicated implementation lead who migrates data and gets the team live inside the free trial — is where a lean, founder-led UK operation can genuinely out-care larger, more automated competitors. Sell the software; win on the onboarding.

What is in / out of scope

- **In:** subscription, configuration, onboarding, support, expansion.
- **Out (initially):** bespoke product development (that sits with RRUP), deep custom ERP integrations (scoped case-by-case, Pack 20).

Implication

The onboarding service (Pack 12) is not overhead — it is the differentiated part of the offering and the primary driver of trial → paid conversion. Resource it accordingly (Pack 13).
